**Testimonial**

**Re: STP Consultants**

Hedley Construction and Design IT Consultants have been working with STP Consultants now for over 11 years.

STP Consultants have provided Structural and Civil Engineering professional services for our projects such as residential apartments, commercial offices, hotels and industrial buildings. . These projects are located in Queensland and in Papua New Guinea.

In the early phases of a design STP Consultants have always provided valuable input to the project as it develops. STP Consultants have the ability to become part of the team which is a critical requirement for the success of our projects.

STP consultants are easy to work with and nothing is too much trouble, I have tried working with alternative consultants and have not enjoyed the process. The results speak for themselves.

On this basis I can thoroughly recommend STP Consultants to any future Client. I would be extremely happy at any time to provide a more personal reference upon contact.

My mobile telephone number is 0412 294 772.

Yours faithfully
