The Directors
STP Consultants
Sturt Street
TOWNSVILLE Q 4810

Dear Sirs

I confirm that Honeycombes have been using the directors of STP as our engineers for our development projects for more than 15 years and are certainly willing to offer this letter of support for your performance.

STP have specifically provided majority of the structural engineering on our 26 projects during this time and often the sites and concepts were complex and needed innovation in design.

STP have consistently provided cost effective designs and work well with our development team and associated consultants.

An issue in our industry is also response time and I am pleased to confirm that STP always meet expectations in providing valued feedback and consideration in timelines provided. Delays to us have a tangible cost and often our expectations may seem unreasonable but STP work with us under these constraints.

I look forward to our ongoing relationship with STP in delivering excellence in property development in regional Queensland. Should you have any other queries in this regard please do not hesitate to contact me.

Yours Faithfully

Peter Honeycombe
Managing Director
