

Ken Miller B. Eng, RPEQ 09053
Senior Civil Engineer

With a career spanning over 30 years and a broad range of experience in all aspects of civil engineering, Ken brings a well-respected record of practical knowledge and achievement to his role of Senior Civil Engineer.

His experience in residential, commercial and industrial subdivisions, road construction, hydrology and civil infrastructure has brought to STP Consultants a wealth of knowledge and experience. Ken has a proven track record in the design and construction of civil engineering projects.

Background & Experience

Qualifying as a drafter in 1983 from Swinburne Institute of Technology and then going on to graduate as a Civil Engineer from Monash University in 1991, Ken established a reputation as a practical and approachable civil engineer. He joined STP Consultants in 2008 as Civil Design Manager after eight years as Infrastructure Co-ordinator for the Townsville City Council.

Ken's practical approach to all engineering projects makes STP Consultants the firm of choice for developers or contractors. With experience in all aspects of civil engineering including multi-residential, commercial and industrial, mining and government, together with a hands-on approach to constructability, his accessibility and approachable nature make Ken a valued asset to the team.
