

KEN MILLER

Senior Civil Engineer

BE, RPEQ 09053

Background

Ken boasts a career spanning more than 30 years. During this time, Ken has developed a broad list of skills in all facets of civil engineering. He is a well-respected industry leader and is known for his no-nonsense, practical approach to delivering effective solutions. Ken's extensive experience extends to civil engineering for multi-dwelling residential, commercial and industrial applications as well as mining and government.

Qualifying as a drafter in 1983 from Swinburne Institute of Technology and then going on to graduate as a Civil Engineer from Monash University in 1991, Ken established a reputation as a practical and approachable civil engineer. He joined STP Consultants in 2008 as Civil Design Manager after eight years as Infrastructure Co-coordinator for the Townsville City Council.

Ken's practical approach to all engineering projects makes STP Consultants the firm of choice for developers or contractors. With experience in all aspects of civil engineering including multi-residential, commercial and industrial, mining and government, together with a hands-on approach to constructability, his accessibility and approachable nature make Ken a valued asset to the team.
