

Brian Mayer

PARTNER – MACKAY OFFICE MANAGER & SENIOR STRUCTURAL ENGINEER

B ENG (HONS), MIEAUST, NER, RPEQ 07448

BACKGROUND

Brian's 20 year career in the construction industry has equipped him with a broad knowledge of structural engineering skills. Working on major infrastructure projects across Australia and Internationally, Brian prides himself on remaining at the forefront of industry innovations and legislation to help provide clients with the best possible engineering solutions. Brian boasts extensive expertise in the structural design of concrete, steel, timber, and masonry for residential, commercial, and industrial applications. With a reputation for building strong and long-lasting relationships with clients and key stakeholders, Brian is passionate about delivering practical and effective solutions for every project he is involved with. Brian joined STP Consultants in November 2005, bringing his significant structural design knowledge to the team.
