

Clinton Morris

SENIOR ELECTRICAL ENGINEER

BE (HONS), GRADCERTLIGHTING, DIPMUS (TECH PRODUCTION)

BACKGROUND

With over 17 years of professional experience under his belt, Clinton has come on board the Brisbane STP Team as a Senior Electrical Engineer. Familiar with a wide range of sectors, Clinton's vast and varied project history makes him an asset to our team and our clients. Clinton's professional experience and current role involves the design and documentation of electrical services for building services projects, including specialist and general lighting, emergency lighting and exit signs, dry fire detection, security and access control, communications, audio/visual, power reticulation and switchboard design, UPS and generator power design and negotiation and liaison with supply authorities.

Clinton is experienced in all aspects of project phase delivery from client conceptualisation stages, through to construction and commissioning stages and practical completion and defects rectification.
