

Matt Whittering

CIVIL MANAGER & SENIOR CIVIL ENGINEER

B ENG (HONS)

BACKGROUND

As an experienced Civil Designer with over 24 years of technical experience in the Civil Engineering sector, Matthew has developed high-level skills in master planning, civil design and drafting, inspections, construction supervision and project management.

With proficiency in a variety of civil design software applications including 12DModel, Ezysurf (3D Terrain), P.C. Drain (Stormwater Design), Autoturn (Vehicle Turning Paths) HECRAS, XPStorm and many others, Matthew has become highly sought after by the residential development sector. In the position of Civil Engineering Manager – North Queensland, Matthew is responsible for managing staff and client timeframes, the design, drafting and documentation of civil works, construction supervision of residential subdivisions and many other civil engineering projects.

Matthew commenced his Cadetship in Civil design at Cardno MBK in 1997, under the stewardship of respected Civil Engineer Ian Hamilton. In 2001, Matthew moved to a smaller practice “Auscan Consultants” and worked closely with Mario Zappala. After Auscan merged with Cardno MBK in 2002, Matthew joined The BMD Group as they moved heavily into the development mode. During his time at BMD, Matthew was responsible for the design of many subdivisions that BMD developed in the Townsville region. In 2007 Matthew joined STP Consultants to set up the civil services arm of the company. Matthew has spent the last 13 years at STP Consultants servicing all the company’s civil clients.

Bringing his significant civil design knowledge and project co-ordination skills to the team, Matthew is a valued employee and has extensive knowledge in the civil design of residential subdivisions and many other civil engineering areas.
