

Paul Jack

SENIOR HYDRAULIC ENGINEER

DIP HYD, ASS DIP BUS (COMP)

BACKGROUND

As a Senior Hydraulic Designer Paul demonstrates skills and knowledge gained from extensive experience in the hydraulic services industry. With a wide range of demonstrated experience across several industry sectors he strives to provide a unique perspective on hydraulic and fire service design and delivery.

With an exceptional technical grasp of hydraulic / Plumbing engineering and an innovative approach Paul can confidently take responsibility for design and documentation of hydraulic and fire services at STP Consultants.
